MENTORING WORKS! TESTIMONIALS FROM MENTEES

“My mentor is one of those rare individuals who concentrates on who you are, not what you want or what you’ve done. His belief in the importance of character and personal congruence to professional aspiration are enormously valuable. He has provided me with perspective, with counsel, with challenge and with opportunities.”

Financial Services Executive

“What I’ve enjoyed about mentoring has been the opportunity to develop and challenge myself, and my mentor has been instrumental in giving me the necessary confidence and self-belief. She has great skill in cutting through the noise and excuses, and I’ve gained insights about my reactions and behaviour and what I can do to create my own outcomes and results. My mentor’s combination of senior executive experience and business acumen, coupled with knowledge of human behaviour helped me analyse and navigate commercial realities and scenarios. Having her as a mentor is a major contributor to my transition from a managing focus and mindset, to becoming a leader and developing my strategic capability.”

CEO, Retail
